DILLON RESIDENCE

This Cape Cod inspired home creates harmony with a clever use of old and new stone throughout. It begins with the warm, chestnut colored Antique Cobblestone of the driveway and the Golden Dune Granite tudor weave patterned retaining wall.

Inside, the open floor plan and clean interiors are accented with an array of exotic

stones, including North Ankar Firebrick and Antique Salmon Granite fireplace surrounds.

Again, at the rear of the house while the curved surrounds of newly quarried Golden Dune Granite enclose the Antique Salmon Granite on the patio, visitors can explore the garden via Antique Salmon Planks.
