NORTH ANKAR FIREBRICK

A hand-pitched volcanic firebrick, North Ankar Firebrick is one of our best-selling products. Its unusual, sophisticated color suggests the northern sky at dusk, or a cool swim in dark quarry waters – an elegant alternative to manufactured firebrick.

Stone firebrick belongs to an ancient tradition dating back to the Romans, who quarried volcanic materials from Mt. Vesuvius to line their ovens. Its edge, visible when installed, has a rustic, hand-crafted finish, ideal for running bond and herringbone firebox patterning.

The reflection of firelight on such textured surfaces enhances the beauty of the material, creating an ideal backdrop to complement any décor. North Ankar Firebrick will bring warmth, exquisite simplicity, and timeless beauty to any firebox project.

North Ankar firebrick is also available in a slimmer Isoline profile, ideal for pre-fabricated fireboxes or the re-lining of existing fireboxes.

RECOMMENDED USES

FIREBRICK	VENEER
SURROUNDS	PAVING

PROJECTS

BrightView, Dillon Residence,
 Tarook Residence

INSTALLATION

We recommend orienting any of our firebricks so the split face always faces the heat source, especially in areas of extreme heat.
